## Exploitable Online Casinos & Roulette Flaw

We've discovered an exploit in the roulette software of some online casinos and want to share this information with you.

Below you'll find a list of tested online casinos, each of them with this exploitable flaw. We recommend you register an account with each of them, so you can win at one, go to the second, win more, and so on:

1. [www.WilliamHillCasino.com](http://www.WilliamHillCasino.com)
2. [www.MansionCasino.com](http://www.MansionCasino.com)
3. [www.Eurogrand.com](http://www.Eurogrand.com)
4. [www.Casino.com](http://www.Casino.com)
5. [www.21Nova.com](http://www.21Nova.com)
6. [www.LesAcasino.com](http://www.LesAcasino.com)
7. [www.JoylandCasino.com](http://www.JoylandCasino.com)
8. [www.Club777.com](http://www.Club777.com)
9. [www.PrestigeCasino.com](http://www.PrestigeCasino.com)
10. [www.SkykingsCasino.com](http://www.SkykingsCasino.com)

To play at these casinos you must download and install their application. Simply install it, register a new account, make a deposit and you're good to go!

We recommend a deposit of \$100 or \$200 – remember, you can always withdraw your money, so there's nothing to lose – only win!

We've tested it and tested it, and it works! But we must warn you: you must stay below the radar. If your account is flagged for suspicious activity, it can be hard to have your funds paid out. Don't be greedy – bet randomly sometimes, and lose a little money here and there.

To your success,
